

The national system to study the surgical management of a range of neonatal conditions – enabling national audit in neonatal surgery

BAPS-CASS Publications Update

We thought it would be interesting and helpful to provide you with a summary of all BAPS-CASS outputs to date. We hope that the results presented in the papers listed can be used to inform practice and enhance current literature. Thank you to everyone who has assisted with providing data for all the BAPS-CASS studies featured in these publications. If you have any queries regarding any of the papers, please contact baps-cass@npeu.ox.ac.uk.

Gastroschisis

2 publications (birth and 1yr data)

CDH

Paper in final draft

Meconium Ileus

2 papers being drafted (birth and 1yr data)

Hirschsprung's Disease

2 papers under review (birth data)

Oesophageal Atresia

2 publications (birth and 1yr data) and 1 paper accepted for publication

NEC

1 paper accepted for publication (birth data) and 1 paper being drafted (1yr data)

GMC Revalidation

We are aware that as part of your GMC revalidation you are required to provide evidence of participation in national audit and research.

If you would like to receive a certificate confirming your contribution to BAPS-CASS, please email us at baps-cass@npeu.ox.ac.uk and we will get one sent out to you.

Chocolate Box

Chocolates this month go to Rachael Clark from Bristol Royal Hospital for Sick Children for being the first person to send out the AIMES/ Long-term outcomes packs.

Many thanks from the BAPS-CASS team!
