v3.4, 14-May-2024

## Instructions to the continuing care site

1. Continue with the allocated care pathway (where possible) until an infant is discharged home or reaches 44<sup>+0</sup> gestational weeks<sup>+days</sup>
2. Look at the red section on the front of the envelope and follow the instruction on either 3a or 3b
- 3a) If this section is blank, you do not need to complete any feed logs. Please go to number 4.
- 3b) If there is a date in the red section then please complete the feed log.

**NOTE: All infants must have a Daily Feed Log (Days 0 – 14) completed, covering 14 days after randomisation. After that, continue completing a Daily Feed Log (Day 15 onwards) until:**

- The infant has reached full feeds for the last three consecutive days **OR**
  - The infant no longer requires a gastric feeding tube **OR**
  - The infant is aged 44<sup>+0</sup> gestational weeks<sup>+days</sup>.
4. If required, complete the relevant reporting form(s) – enclosed in this envelope.
  5. Inform the recruiting site when infant is discharged home or transferred.
  6. Securely return all completed data collection forms to the recruiting site via secure email.

If you have any questions, please get in touch with the neoGASTRIC team.
