

-UK Obstetric Surveillance System

# Multiple Repeat Caesarean Section Study 01/09

**Data Collection Form - CONTROL** 

Please report any woman delivering between 1st January 2009 and 31st December 2009.

Instructions for selecting control women:

- 1. Identify the date and time of delivery of the woman you have reported who has had a 5th (or more) delivery by caesarean section. This woman is the CASE.
- 2. From the delivery suite/labour ward records identify the two women who delivered by **ELECTIVE** caesarean section immediately **BEFORE** the case. These women should have had at least one and not more than three previous deliveries by caesarean section.
- 3. Please retrieve the hospital case notes for these control women from medical records.
- 4. Please complete a Control Data Collection Form (this form) for each of the women you have identified as the controls.
- 5. You will also have been sent a Case Data Collection Form. Please complete the case form with information about the woman who has had a 5th (or more) delivery by caesarean section.

Please return the completed form to:

Surpa apput

Fax: 01865 289701 Phone: 01865 289714

Case reported in:

### **Instructions**

- 1. Please do not enter any personally identifiable information (e.g. name, address or hospital number) on this form.
- 2. Please record the ID number from the front of this form against the woman's name on the Clinician's Section of the blue card retained in the UKOSS folder.
- 3. Fill in the form using the information available in the woman's case notes.
- 4. Tick the boxes as appropriate. If you require any additional space to answer a question please use the space provided in section 7.
- 5. Please complete all dates in the format DD/MM/YY, and all times using the 24hr clock e.g. 18:37
- 6. If codes or examples are required, some lists (not exhaustive) are included on the back page of the form.
- 7. If you do not know the answers to some questions, please indicate this in section 7.
- 8. If you encounter any problems with completing the form please contact the UKOSS Administrator or use the space in section 7 to describe the problem.

Sec	tion 3: Previous Medical History
Plea	se indicate whether any of the following were present:
3.1	Previous or pre-existing medical problems <sup>4*</sup> Yes No
	If Yes, please specify
3.2	Has the woman had any other previous uterine surgery? Yes No
	If Yes, please specify type and number of operations
	Myomectomy Yes Number
	If Yes, Was the cavity breached?  Yes No
	Dilatation and curettage Yes Number
	Surgical termination of pregnancy  Yes  Number
	Evacuation of retained products of conception (ERPC)  Yes   Number
	Other <sup>5*</sup> Yes  Number
	If Other, please specify
3.3	Did the woman have a previous uterine perforation  Yes  No  No  No  No  No  No  No  No  No  No
	If Yes, was any treatment given for the perforation?  Yes  No
	If Yes, please specify
	See A. This Drawn and an
<b>5ec 4.1</b>	tion 4: This Pregnancy Final Estimated Date of Delivery (EDD) <sup>6*</sup>
4.1	Was this pregnancy a multiple pregnancy?  Yes No
4.2	If Yes, please specify number of fetuses
4.3	Was placenta praevia diagnosed prior to delivery?  Yes No
4.0	If Yes, please specify the grade
4.4	Was placental invasion diagnosed prior to delivery?  Yes No
	If Yes, was this accreta percreta increta
	How was this diagnosed?
	Were any pre-operative interventional radiology measures taken? Yes No
4.5	Were there other problems in this pregnancy?2*  Yes No
	If Yes, please specify
4.6	Gestation at which delivery was planned to occur (weeks)
Sec	tion 5: Delivery
5.1	Did the woman labour? Yes No
	If Yes, please state date and time of diagnosis of labour DD/MM/YY hh
	Did the woman receive syntocinon?
	If Yes, Duration of syntocinon
5.2	What was the indication for caesarean section?
5.3	Was the c-section LSCS  or classical
5.4	What was the grade of urgency? <sup>7*</sup>
5.5	What was the grade of operator?
5.6	What was the grade of anaesthetist?

5.7 Were any of the following diagnosed intra-operatively?  (please record all that apply)	
Uterine dehiscence disruption of uterine muscle with intact serosa	Yes No No
Uterine rupture disruption or tear of uterine muscle & visceral peritoneum or a separation of uterine m to the bladder or broad ligament	Yes No uscle with extension
Placenta praevia	Yes No No
If Yes, please specify the grade	
Placental invasion	Yes No No
If Yes, was this accreta percret	ta 🔲 increta 🔲
5.8 Did the woman have a postpartum haemorrhage?	Yes No
If Yes, what was the estimated blood loss (mls):	
What was the underlying cause of any haemorrhage? (please tick	all that apply)
Uterine atony	
Placenta accreta	
Uterine infection	
Uterine rupture	
Other	
If Other, please specify	
5.9 Did the woman refuse blood products?	Yes No
If No, were blood products given?	Yes No
If Yes, please state total units of each	
Whole blood or packed red cells	
Fresh Frozen Plasma (FFP)	
Platelets	
Cryoprecipitate	
5.10 Were any of the following required?	
Intra-abdominal balloon catheter	Yes No
B-Lynch suture	Yes No
Uterine packing	Yes No
Hysterectomy	Yes No
Factor VIIa	Yes No
5.11 Were any of the following structures damaged intra-operatively?	
Bladder	Yes No
Ureter	Yes No No
Ovary	Yes No
Bowel	Yes No No
5.12 Was the woman sterilised?	Yes No

Section	on 6: Outcomes	
Section	on 6a: <b>Woman</b>	
6a.1	Was the woman admitted to ITU/HDU?	Yes No
	If Yes, duration of stay (days)	
	Or Tick if woman is still in ITU/HDU	
	Or Tick if woman was transferred to another hospital	
6a.2	Did any other major maternal morbidity occur?8*	Yes No
	If Yes, please specify	
6a.3	Was post natal counselling documented?	Yes No
	If Yes, please state advice given	
6a.4 I	Did the woman die?	Yes No No
	If Yes, please specify date of death	D D / M M / Y Y
	What was the primary cause of death as stated on the death	certificate?
Section	on 6b: <b>Infant 1</b>	
NB:	If more than one infant, for each additional infant, please photocomethe form (before filling it in) and attach extra sheet(s) or download the website: www.npeu.ox.ac.uk/ukoss	
6b.1 I	Date and time of delivery	M/YY hh:mm
	Please check that this is BEFORE th	ne delivery of the case
6b.2	Birthweight	□□□ g
6b.3 \	Was the infant stillborn?	Yes No
	If Yes, Please go to section 7	
6b.4	5 min Apgar	
6b.5	Was the infant admitted to the neonatal unit?	Yes No
	If Yes, duration of stay (days)	
6b.6 I	Did any major infant complications occur?9*	Yes 🗌 No 🗌
	If Yes, please specify	
6b.7 I	Did this infant die?	Yes No
	If Yes, please specify date of death	D D / M M / Y Y
	What was the primary cause of death as stated on the death certific	cate?
	(please state if not known)

#### **Definitions**

#### 1. UK Census Coding for ethnic group

WHITE

01. British

02. Irish

03. Any other white background

**MIXED** 

04. White and black Caribbean

05. White and black African

06. White and Asian

07. Any other mixed background

ASIAN OR ASIAN BRITISH

08. Indian

09. Pakistani

10. Bangladeshi

11. Any other Asian background

**BLACK OR BLACK BRITISH** 

12. Caribbean

13. African

14. Any other black background

CHINESE OR OTHER ETHNIC GROUP

15. Chinese

16. Any other ethnic group

### 2: Previous or current pregnancy problems, including:

Surgical procedure in pregnancy

Hyperemesis requiring admission

Dehydration requiring admission

Thrombotic event

Ovarian hyperstimulation syndrome

Severe infection e.g. pyelonephritis

Pre-eclampsia (hypertension and proteinuria)

Significant antepartum haemorrhage

Gestational diabetes

Placental abruption

Cardiac problems

#### 3: Intraoperative complications, including:

Damage to bowel

Damage to bladder

Uterine rupture

Infection

Return to theatre

## 4: Previous or pre-existing maternal medical problems, including:

**Essential hypertension** 

Cardiac disease (congenital or acquired)

Renal disease

Endocrine disorders e.g. hypo or hyperthyroidism

Psychiatric disorders

Haematological disorders e.g. sickle cell disease, diagnosed thrombophilia

Inflammatory disorders e.g. inflammatory bowel disease

Epilepsy

Diabetes

Autoimmune diseases

Cancer

HIV

### 5: Examples of other previous uterine surgery:

Endometrial resection/ablation

Septal resection

Polpectomy

6: Estimated date of delivery (EDD): Use the best estimate (ultrasound scan or date of last menstrual period) based on a 40 week gestation

### 7: RCA/RCOG/CEMACH/CNST Classification for urgency of caesarean section:

- 1. Immediate threat to life of woman or fetus
- 2. Maternal or fetal compromise which is not immediately life-threatening
- 3. Needing early delivery but no maternal or fetal compromise
- 4. At a time to suit the woman and maternity team

### 8: Major maternal medical complications, including:

Persistent vegetative state

Cardiac arrest

Cerebrovascular accident

Adult respiratory distress syndrome

Disseminated intravascular coagulopathy

Pulmonary oedema

Mendleson's syndrome

Renal failure

Thrombotic event

Septicaemia

Required ventilation

#### 9: Fetal/infant complications, including:

Respiratory distress syndrome

Intraventricular haemorrhage

Necrotising enterocolitis

Neonatal encephalopathy

Chronic lung disease

Severe jaundice requiring phototherapy

Major congenital anomaly

Severe infection e.g. septicaemia, meningitis

Exchange transfusion
